

Acredale House

General Statement on Health and Safety

Our policy, so far as is reasonably practicable, is to provide and maintain safe and healthy working conditions, equipment and systems of work for all our employees, volunteers and to provide such information, training and supervision as they need for this purpose.

We will also endeavour to ensure, so far as is reasonably practicable, the health, safety and welfare of all staff, contractors, visitors and all others who may visit or use the premises.

The allocation of duties for safety matters and the particular arrangements that we will make to implement our policy are set out in the full Health and Safety Policy which can be inspected at the Office.

The policy will be kept up to date, particularly in the light of any changes in legislation, to our buildings and activities. To ensure this, the policy and the way in which it is operated will be reviewed regularly and any appropriate changes made.

In order to ensure that Health and Safety matters are kept constantly under review, an item on Health and Safety will be on the agenda for all meetings of the Board and employees and volunteers will be consulted on a regular basis in order to seek their views on health and safety matters.
